### Intensive Nourishing Cream

The natural aging process is a continuous process, normally beginning in our mid-20s. Within the skin, collagen production slows, and the skin has a bit less spring. Dead skin cells do not shed as quickly and turnover of new skin cells may decrease slightly. While the signs of aging are typically not visible for decades.

To delay the aging process, get in a skin nourishment routine, apply **AuRas Intensive Nourishing Cream** to your face and neck to restore skin from within as it reverses loss of density and revitalizes skin with increased resiliency. It is a unique nutrient-rich moisturizer, perfectly for day and night, to moisturize, protect, and enhance radiance, resulting in visibly firmer face and a younger-looking.
